VACUUM SYSTEMS

This system provides you with easiest and fastest textile transport possibilities using the least space. The vacuum transport technologies suitable to transport both dry and wet laundry.

Our vacuum transport system can be applied between different floors, buildings, finishing machines, conveyors or dryers.

A fast, efficient and automatic way of transferring textiles – wherever space is at premium

VACUUM PIPELINE

The vacuum pipeline connects the loading station with the final destination

The major advantage of the vacuum transport system is minimum need of space and the speed of transport.

Engel-Gematex produces custom vacuum-sorting equipment, vacuum transport systems and vacuum loading/unloading systems for different machines in the laundry. Storage boxes placed as a tower or as a battery at the clean or dirty side gives you a real alternative to the service-intensive bag-system.

We are happy to assist you with your design; our know-how and decades of experience in the air transport sector speaks for itself.
