SORTING SYSTEMS

This technology is used to sort and transport all kind of textiles (dirty, wet and dry).

The measurements and capacity of the sorting station can be adapted in accordance with customer requirements. Electronic weight and quantity recording of the sorted textiles is possible.

SORTING SYSTEMS CAN BE EQUIPPED WITH:

- a) Weighing sensors for loading and sorting of laundry textile.
- b) The fully automatic pressing-device enables the transport container to hold double capacity, which leads to a 50% saving when delivering laundry to the customer.
- c) Sorting stations could be loaded using different technologies, for example using either sucking system, or conveyors or tilting devices.

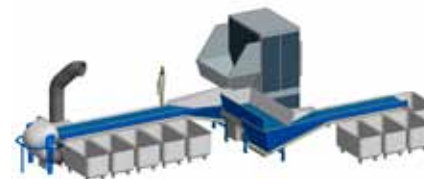

Engel-Gematex has pioneered and invented sorting stations

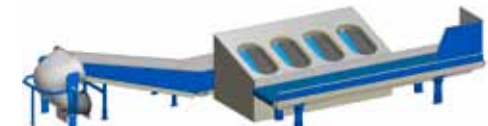

Sorting system for laundry containers

Sorting system for laundry trolleys

Sorting system with air transport technology

Sorting system
for bag system (Stockbox battery/tower)
